

# ONLINE MAPPING TOOLS

Access to interactive mapping on your mobile device can be done through a free app called **Mapright**. Please follow these steps to use mobile mapping.

Step 1: Search, download, and install “Mapright” App on your iPhone or Android App store. Once installed, move to step 2.

Step 2: Type this website into your web browser (using Sarafi, Firefox or Google Chrome):

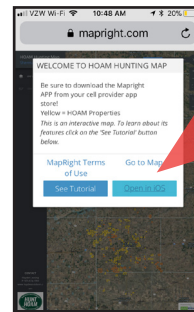

<http://bit.ly/hunthoammap>

Step 3: On the opening page, click “Open in Iphone/iOS” or “Open in Android” button

Step 4: Accept “location access” to Mapright App if prompted

Step 5: Enjoy online access to maps for H.O.A.M.!

NOTE: Please practice navigating around the app to familiarize yourself with how it works before going afield.

## NO CELL COVERAGE WHEN HUNTING?

**HELPFUL TIP:** To download the maps for use OFF LINE, or out-of-cell coverage, simply zoom to the overall area you will be hunting, and click the menu in the top left corner to find “Save for Off-line”.

\*\*\*\*This must be done when connected to Wifi and will take 10-15 minutes to download the hi res maps to your phone.
