Ranch on Beaver Creek

3,144 Acres | Kansas
Priced at $5,400,000

This fine ranch offers ease of operation, excellent grazing with good fencing and good capacity for rotational grazing. Forage crops are produced on certified organic irrigated and non irrigated acres and the working facilities and infrastructure on the ranch are excellent. The location just 15 miles Northeast of Goodland, Kansas provides good access to Interstate 70 and all markets.

What Our Clients Are Saying...

★ ★ ★ ★ ★

Brent Hedrick

"I highly recommend Brent Hedrick with Hayden Outdoors for brokering any real estate transactions you might need. In 2017, Brent helped us buy a 56 acre parcel in Teller County, and in fall 2021, he helped again in selling the property when circumstances had changed for us. Brent is an ultimate professional and was a delight to work with. His expertise, stellar customer service, professional approach in developing a great description and listing price of the parcel, and full engagement in the process resulted in our selling the property four days after listing. We had our first offer within 12 hours, and a bidding war over the next three days resulted in a signed contract and a final cash offer that was significantly higher than the listing price. He assisted in navigating through multiple offers and was in constant contact with updates and guidance throughout the process. Your best decision would be to hire Brent when you need a real estate broker. I know I will call him again!"
