18.04.010 Definitions.

A. "Agricultural land" shall mean all that real property within the boundaries of Mariposa County currently used for agricultural activities or operations or upon which agricultural activities or operations may in the future be established.

B. "Agricultural activity or operation" shall mean any activity or operation which has to do with agriculture and shall include, but not be limited to, the cultivation and tillage of the soil; dairying; the production, irrigation, frost protection, cultivation, growing, harvesting and processing of any agricultural commodity, including viticulture, horticulture, timber or apiculture; the raising of livestock, fur-bearing animals, fish or poultry; and any commercial agricultural practices performed as incident to or in conjunction with such operations, including preparation for market, delivery to storage or to market, or to carriers for transportation to market.

C. "Commercial purposes" shall mean an activity or operation that is primarily conducted for commercial use or sale of an agricultural product or commodity on the activity or operation site with financial gain as the primary aim.

D. "Nuisance" shall mean anything which is injurious to health, or is indecent or offensive to the senses, or an obstruction to the free use of property, so as to interfere with the comfortable enjoyment of life or property.

E. "Private nuisance" shall mean every nuisance which is not included in the definition of a public nuisance.

F. "Public nuisance" shall mean a nuisance which affects at the same time an entire community or neighborhood, or any considerable number of persons, although the extent of the annoyance or damage inflicted upon individuals may be unequal. (Ord. 888 Exh."A", 1995).

18.04.020 Findings and policy.

A. It is the declared policy of this county to enhance and encourage agricultural operations within the county. It is the further intent of this county to provide to the residents of this county proper notification of the county's recognition and

support through this ordinance of those persons' and/or entities' right to conduct agricultural activity.

B. Where non-agricultural land uses extend into agricultural areas or exist side by side, agricultural operations frequently become the subject of nuisance complaints due to lack of information about such operations. As a result, agricultural operators are forced to cease or curtail their operations. Such actions discourage investment in farm improvements to the detriment of adjacent agricultural uses and the economic viability of the county's agricultural industry as a whole. It is the purpose and intent of this section to reduce the loss to the county of its agricultural resources by clarifying the circumstances under which agricultural operations may be considered a nuisance. This ordinance is not to be construed as in any way modifying or abridging state law as set out in the California Civil Code, Health and Safety Code, Fish and Game Code, Food and Agricultural Code, Division 7 of the Water Code, or any other applicable provision of state law relative to nuisances; rather, it is only to be utilized in the interpretation and enforcement of the provisions of this Code and county regulations.

C. An additional purpose of this ordinance is to promote a good neighbor policy by advising purchasers and users of property adjacent to or near agricultural operations of the inherent potential effects associated with such purchase or residence. Such concerns may include, but are not limited to, the noise, odor, dust, chemicals, smoke and hours of operation that may accompany agricultural operations. It is intended that, through mandatory disclosure, purchasers and users will better understand the impact of living near agricultural operations and be prepared to accept attendant conditions as the natural result of living in or near rural areas. (Ord. 888 Exh."A", 1995).

18.04.030 Nuisance.

No existing or future agricultural activity, operation, or facility or appurtenances thereof, conducted or maintained for commercial purposes, and in a manner consistent with proper and accepted customs, standards, and practices and with all chapters of the Mariposa County Code, as established and followed by similar agricultural operations, shall be or become a nuisance, public or private, pursuant to the Mariposa County Code, after the same has been in operation for more than one year if it was not a nuisance at the time it began. The provisions of this section shall not apply whenever a nuisance results from agricultural operations inconsistent with accepted customs, standards, and practices or contrary to local, state, or federal ordinances, laws, and regulations. (Ord. 888 Exh."A", 1995).
