Conditional Zoning

NO ANTI-SPECULATION

Article 3.0 Use Regulations

3.1. Purpose and Organization of this Article

3.1.1. Purpose

This article identifies the land uses allowed in Larimer County's zoning districts and establishes standards that apply to certain uses with unique characteristics or impacts.

3.1.2. Organization

- A. §3.2, *Tables of Allowed Uses*, lists uses allowed by district and provides cross-references to applicable use -specific standards.
- B. §3.3, *Use-Specific Standards*, establishes use-specific standards applicable to specific land uses.
- C. §3.4, *Accessory Uses and Structures*, establishes standards applicable to accessory uses and structures.
- D. §3.5, *Temporary Uses and Structures*, establishes standards applicable to temporary uses and structures.

3.2. Tables of Allowed Uses

3.2.1. Explanation of Use Permission Abbreviations

A. Uses Permitted By-Right

"R" in a cell indicates that the use is permitted by right in the respective zoning district. Permitted uses are subject to all other applicable regulations of the Code.

B. Site Plan Review Required

"SP" in a cell indicates that the use is only permitted in the respective zoning district with approval of a site plan review pursuant to §6.4.1, *Site Plan Review*, subject to all other applicable standards within the Code.

C. Administrative Special Review Required

"AS" in a cell indicates that the use is only permitted in the respective zoning district with approval of an administrative special review pursuant to §6.4.3, *Administrative Special Review*, subject to all other applicable standards within the Code.

D. Special Review Required

"S" in a cell indicates that the use is only permitted in the respective zoning district with approval of a special review pursuant to §6.4.2, *Special Review*, subject to all other applicable standards within the Code.

E. Use Prohibited

A blank cell indicates that the use is prohibited in the respective zoning district.

F. Accessory Uses

“AC” in a cell indicates that the use is only permitted in the respective zoning district as an accessory use.

G. Temporary Uses

“T” in a cell indicates that the use is only permitted in the respective zoning district as a temporary use.

H. Use-Specific Standards

Use-specific standards are identified and cross-referenced in the last column of the table. Regardless of whether a use is allowed by right or with approval of a site plan, administrative special review, special Review, additional standards may be applicable to that use.

3.2.2. Table Organization

A. Primary, Accessory, and Temporary Use Tables

§3.2, *Tables of Allowed Uses*, contains a total of six tables with primary, accessory, and temporary uses separated into different tables and organized by the character areas described in §2.0, *Zoning Districts*. The Rural tables include the Conservation and Agricultural, Rural, and Mixed Center character areas and the Urban tables include the Urban character area.

B. Use Categories and Use Types

In §3.2.6 and §3.2.7, land uses and activities are classified into general use categories and specific use types based on common functional, product, or physical characteristics such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions. This classification provides a systematic basis for assigning present and future land uses into appropriate zoning districts. This classification does not list every use or activity that may appropriately exist within each use category. Certain uses may be listed in one category when they may reasonably have been listed in one or more other categories. The use categories are intended as an indexing tool and are not regulatory.

C. Use Identification

If a use has been interpreted into a use category, it may not also be interpreted into a second use category, even though it may broadly fit within the non-identified use category definition. For example, if the production of homemade ice cream with on-site retail is categorized as an artisan food and beverage use, it will not also be categorized as a general retail use.

3.2.3. Application to Zoning Districts

A. Approval Limited to Identified Use

Approval of a use listed in §3.2.6 or §3.2.7 and compliance with the applicable use-specific standards for that use, authorizes that use only. Buildings and structures shall not be erected, altered, or enlarged except for the uses listed in §3.2.6 and §3.2.7. All other uses not specifically listed are prohibited and shall be unlawful unless the Director has determined an appropriate use type for the unlisted use pursuant to the procedure in §3.2.4, below.

B. Multiple Principal Uses Permitted

1. Multiple principal uses consisting of an agricultural operation and single-unit detached dwelling on one lot shall be allowed in all zoning districts where agricultural operations are allowed and all accessory uses associated with the agricultural operation or single-unit detached dwelling shall also be permitted.
2. Multiple principal uses on one lot shall be allowed in the ACE, RC, MHP-P, MU-C, CC, CD, IL, and IH zoning districts if each individual use is allowed in the zoning district and all uses can be accommodated within the zoning district's dimensional standards and comply with all use-specific conditions or standards required of any of the principal uses.

3.2.4. Classification of New and Unlisted Uses

The following procedure shall apply if an application is submitted for a use type that is not listed in §3.2.6 or §3.2.7. Submission and approval of such an application shall be required prior to approval of any other permit or development approval associated with the use.

A. Director Determination of Appropriate Use Type

The Director shall determine the appropriate use type for the proposed use. In making such determination, the Director shall consider the potential impacts of the proposed use including the nature of the use and whether it includes dwellings, sales, processing, or storage; and typical operations, employment characteristics, nuisances, requirements for public utilities, and transportation requirements.

B. Use and Use-Specific Standards Requiring a Text Amendment

When and if the Director determines that the proposed unlisted use cannot be applied to an existing appropriate use type, or that additional use-specific standards are necessary, the Director shall require a text amendment to the Code pursuant to §6.6.3, *Amending the Code Text*.

C. Appeal of Director's Determination

An appeal of the Director's determination shall be made pursuant to the procedures in §6.7.2, *Appeals*.

3.2.5. Use Conversion

- A. When one use is changed to another, the requirements of this Code shall apply to the new use. Use changes can occur in a number of ways, including from current primary to new primary, by adding a second (or later) principal use, by changing a principal use to an accessory use, by expanding the size of an accessory use so that it becomes a principal use, or by changing from a current accessory use to a new accessory use.
- B. The use of any part of any nonresidential building, structure, or property shall not be changed to any other use, whether principal or accessory and whether alterations in the building, structure, or property are involved or not, until a site plan review that meets the standards of §6.4.1 has been approved by the Director.
