PERMIT TO CONSTRUCT A WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT
CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of the permit does not assure the applicant that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction and Pump Installation Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 17.
- 3) Approved pursuant to CRS 37-92-602(3)(b)(II)(A) as the only well on a tract of land of 40 acres described as the NW 1/4 of the NW 1/4 of Sec. 8, Twp. 9 N., Rng. 73 W. of the 6th P.M., Larimer County.
- 4) The use of ground water from this well is limited to fire protection, ordinary household purposes inside 1 single family dwelling, the irrigation of not more than one acre of home gardens and lawns, and the watering of domestic animals.
- 5) The maximum pumping rate shall not exceed 15 GPM.
- 6) The return flow from the use of the well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.
- 7) This well shall be constructed not more than 200 feet from the location specified on this permit.

Memorandum

To: Mel Malley

From: G. Eric Jensen

Re: Application receipt no. 352920

Your office requested further information regarding water rights on parcel #39080-00 (NW 1/4 of the NW 1/4, Section 8 Township 9 North, Range 73 West, 105 35'P.M.) Your records show that a well is currently located on this tract. When my application was made in May, 1993, I was unaware that my father (George L. Jensen, deceased) had applied for or received any water rights on that parcel or adjoining parcels of land. No well has been developed on the property that currently provides water (household or domestic) to our house at Redfeather Lakes. An old steel drum had been placed in the ground in an old aspen grove some thirty-five years ago. This steel drum is located in the approximate area your records show "Mary Spring well" is located; however, no water has been obtained from this "spring" for a number of years. Since building an addition to the old log cabin in the last four years (including the construction of a bedroom, den, utility room and bathroom) and return type septic system that had not existed before, I have brought domestic water in a 100 gallon pvc tank to meet our household needs (i.e. drinking, washing, cleaning, etc.). "Mary spring well" is inadequate to meet current and future needs. Please help me expedite the building of a "real" well requested on the application.

MEMORANDUM

TO: G. Eric Jensen

FROM: Mel Malley

RE: Application receipt no. 352920

The subject application for a well permit is being returned for the reason(s) indicated below. The additional data and corrections which we are requesting will aid us in evaluation of your application. Prompt completion or correction of ALL items and the immediate return of the application to this office will expedite its processing. Please make corrections on the application, NOT on this memo. If you have questions please call the Permitting Section Information Desk at (303) 866-3587. Thank you.

PLEASE INITIAL ALL CHANGES - PLEASE TYPE OR PRINT IN BLACK
BE SURE TO RETURN THE PERMIT APPLICATION FORM TO US

Our records indicate that there is currently a well registered as being located in the same tract as your new application and therefore the new well would not be the only well on the tract, contrary to the information as indicated in item 11 on the application. Per statute, new domestic wells must be the only well on a tract of land of 35 acres or more.

The registered well is well no. 118641, decreed as the Mary spring well in water court case W-8407-76. The registered owner is George L. Jensen.

Dear Sirs:

Due to inclement weather this past winter, I was unable to accomplish a survey of a possible well site until the end of April. I would appreciate it if you would expedite the processing of the well permit. My intention, if possible, is to proceed with the drilling at the end of June or the beginning of July. Please feel free to give me a call at 526-9631.

Sincerely yours,

G. Eric Jensen

818 Centennial Bldg.
1313 Sherman St.
Denver, Co. 80203

Dear Mr. Malley

In May of this year I applied for a domestic water permit for property my family owns near Redfeather Lakes, Colorado. However, according to a memorandum dated June 14 you sent to me regarding our application (application receipt no. 352920), your office requested further information regarding an existing "well" located on our property (NW 1/4 of the NW 1/4 of Section 8, Township 9 North, Range 73 West, 105° 35' P.M.). At that time I was unaware that my father (George L. Jensen, deceased) had applied for or received any water rights on that parcel or adjoining parcels of land. Since June I have been in the process of vacating that water right (Water court case #W-8407-76; well #118641).

This letter includes the following additional information that will, I hope, expedite the granting of a well permit:

1. Copy of the court decree vacating Mary Spring well.
2. Changes in the original permit application (i.e. driller' name, address and license (#4), location of well (#5 and 6), and proposed casing program (#8).
3. Schematic diagram of proposed casing.

If you need to contact me any further regarding this matter, please call me at 526-9631.

Sincerely yours,

G. Eric Jensen

DISTRICT COURT, WATER DIVISION 1, COLORADO

CASE NO. W-8407

ORDER TO VACATE DECREE IN PART

CONCERNING THE APPLICATION FOR WATER RIGHTS OF:

GEORGE L. JENSEN,

IN LARIMER COUNTY

THIS CLAIM having been filed with the Water Clerk, Water Division No. 1 on December 14, 1976 and decreed on March 20, 1980. Upon request of the owner and the Court being fully advised in the premises does find:

1. Mary Spring Well is an exempt well adjudicated pursuant to 37-92-602 (4).
2. Mary Spring Well shall be plugged and abandoned.

THEREFORE, THE PARTS OF THE DECREE IN CASE NO. W-8407 PERTAINING TO MARY SPRING WELL IS VACATED.

Dated:

JUL 29 1993

BY THE COURT:

ROBERT A. BEHRMAN
Water Judge
Water Division No. 1
State of Colorado
